

Curriculum Vitae

Cybersecurity Analyst

BENAYACHE Sidali

SOC Analyst • SIEM • Threat Detection • Incident Response

benayachesidali01@gmail.com | 0668 85 95 97 | Ben Aknoun, Algeria | <https://sidali-benayache.vercel.app/>

PROFILE

Holder of a Master's degree in Information Systems Security, with a strong foundation in cybersecurity, SOC design and deployment, AI-based threat detection, incident response automation, systems and network administration, as well as web application development.

SKILLS

Monitoring & Defense: SOC design and deployment, SIEM (Wazuh), IDS/IPS (Suricata), firewalls (pfSense), log analysis, security event monitoring, incident response

Threat Analysis & Penetration Testing: Vulnerability assessment, penetration testing (Pentest), reconnaissance, network traffic analysis, security analysis, Wireshark, Nmap, Kali Linux, Threat Intelligence (MITRE ATT&CK, VirusTotal)

Automation & AI: Security process automation, workflow orchestration (n8n, Shuffle), artificial intelligence and machine learning (scikit-learn), threat detection, analysis, and classification

Systems & Networks: System administration (Linux / Windows), virtualization (VMware, VirtualBox), computer network management, network service configuration, and incident troubleshooting

Development: Python, Java EE, SQL, HTML, CSS, PHP, JavaScript, React.js, Laravel, Express.js, WordPress

Languages: Arabic (Native), French (Fluent), English (Intermediate)

INTERNSHIP & ACADEMIC PROJECTS

Algeria Post (in partnership with Blida 1 University)

(2025 – 2026)

Master's Final Year Project

- Designed and deployed a lightweight open-source SOC using Wazuh, pfSense, Suricata, and n8n for Algeria Post
- Developed an AI-based phishing detection module using TF-IDF, handcrafted heuristic features, and Random Forest/SVM/Logistic Regression
- Automated incident response through n8n workflows for alert triage, threat scoring, and automatic IP blocking via pfSense

Java EE Medical Management Application

(2024–2025)

Blida 1 University / Back-End Development & Security | Master's Year 1 Project

- Developed a medical management application (doctors, patients, appointments) following the MVC architecture
- Integrated Web3 Smart Contracts and secured sensitive data using BCrypt

E-Learning Platform

(2023 – 2024)

Blida 1 University / Web Development | Bachelor's Project

- Designed and developed an e-learning platform for managing teachers' and students' data and providing online course access

EDUCATION

Master's Degree in Information Systems Security (2025–2026)

Saad Dahlab University, Blida 1, Algeria

Bachelor's Degree (LMD) in Mathematics & Computer Science (SIQ) (2021–2024)

Saad Dahlab University, Blida 1, Algeria

CCNA 1, 2, 3 — Introduction to Networks, Switching, Routing & Enterprise Networking (2024–2026)

INSFP Blida / Cisco Networking Academy | Training

Ethical Hacker & Cybersecurity (2024–2025)

Cisco Networking Academy | Training
